Annex B

Children's Performance licensing

- B1. Unless an exemption applies, a licence is required until a child reaches the compulsory school leaving age. This is defined as the last Friday in June of the school year (generally Y11) that they reach 16.
(Informative – a child who is 15 at the last Friday in June but who has a birthday in July or August that same year, does not need a licence or a work permit after the last Friday in June of that year)
- B2. The legislation allows that a Council may refuse an application if it is not submitted a minimum 21 days before a licence is required. The Council recognises that this time period is not always attainable for applicants to achieve and will generally accept complete applications up to 5 working days before the first day of a licensable activity. Incomplete applications, or those received less than 5 working days (not including the day of application) before a performance will normally be rejected and the Council retains the right to refuse applications received between 5 working days and the 21 days due to other pressures. Although the legislation and this policy specify the information that applicants need to provide when making an application, it is the expectation that the Standard Child Performance and Activities Licence Application Form (England) is used.
- B3. A complete application includes all documents and information provided and an application form satisfactorily completed as per the regulations and primary legislation. The council will accept a passport as equivalent to a birth certificate but expect applicants to obtain the necessary leave of absence from the school as part of the documentation accompanying an application together with either a medical certificate or a parent's statement of fitness for their child dated within the last six months.
- B4. Applications need to be made by the person who is responsible for the arrangements and operational decisions during the course of a performance for the purpose of protecting the child and ensuring their wellbeing. This would normally be the producer of the performance or activity. Applications signed by someone other than this will be returned.
- B5. In the event of a refusal, revocation or variation of a licence or application there is a right of appeal to the Magistrates Court. Clear reasons for the decision taken will be given in writing.
- B6. Where a child does not live in Great Britain applications can be made by applicants on their behalf if they live or have their place of business in Milton Keynes. When neither the child nor applicant resides in Great Britain the Council will accept

applications if the performance or first performance (if part of a tour) takes place within our administrative boundary.

- B7. The Council cannot grant licences for children residing here but with an intention of performing abroad. This is a Magistrates Court function.
- B8. Conditions will be applied to licences as considered appropriate to the welfare of the child / children. In addition, as the roles that child performers undertake can be varied there are occasions when they can be exposed to issues of physiological and physical concern (for example a part in a horror film; scenes of death; simulated drowning etc.). The Council may therefore require a suitable and sufficient risk assessment covering issues of concern and information as part of an application detailing the synopsis of a role including a script.
- B9. The Council will have regard to any relevant guidance (such as the NNCEE Guide to Child Performance Licensing and Department of Education) advice on interpretation of the legal requirements when considering applications.
- B10. The Council does not interpret the law as to allow the extension of a licence once it has expired. In such cases a new application would need to be made. Applications to vary (including to extend) a licence will be considered provided the licence concerned is still current or the permission concerned has not yet commenced.
- B11. The Council expects organisations working with children and young people to have child protection policies in place and for these to be provided with applications. Such policies should comply with good practice guidance and identify a safeguarding lead for the permission concerned and provide an awareness of safeguarding issues.
- B12. Council policy is that children taking part in performances or licensed rehearsals should have one break of at least an hour when present for four or more consecutive hours unless the chaperone present believes the minimum 45 minute break prescribed in legislation is appropriate. This is because although the Council recognises that Regulations stipulate performance breaks after certain periods of time, these are minimum requirements and the Council reserves the right to require additional breaks beyond these, dependant on the role concerned and the age of the child.
- B13. In respect of overnight breaks it is expected that most children should have a break of no less than 14 hours duration.
- B14. Where a licence holder is arranging education for a child through private tuition the council may require evidence of that teacher's suitability and also that the children are being tutored in appropriate surroundings.

- B15. Tutoring for children absent from school may only take place on days on which the child would normally be required to attend a Local Authority maintained school. Thus weekend and school holiday tutoring is not permitted. On days when tutoring is permitted it should not be provided after 5pm.
- B16. Children are not expected to be left to travel home or to their temporary living accommodation unless accompanied by a suitably competent adult. As part of its assessment of the suitability of accommodation the Council may also consider the distance from the performance; the method of travel to and from the place of performance; and availability of interconnecting rooms.
- B17. The Council recognises that there can be exemptions on certain performance licensing where a child performs on fewer than four days in a six month period. Certain caveats are listed in the legislation for the exemptions to apply. The six month period will be based on the six months immediately preceding the first date when a new licence may be required.
- B18. An exemption from a licence under this rule does not mean an exemption from regulations on the hours of performance etc.
- B19. The Council will issue an exemption notice on request where they are formally advised that a child is performing under the four day or other exemption rule so that this can be produced at the place of performance if required. Supply of an exemption notice will only take place if the person seeking the notice has provided sufficient information to the satisfaction of the Council.
- B20. The Council recognises the chaperone discretion in respect of performance hours for children as detailed at Regulation 29 of the Children (Performance and Activities) (England) Regulations 2014. In addition, as the chaperone is the main person responsible for a child's welfare during a performance the licence holder should have due regard to any concerns raised to them in respect of a child's health and kind treatment under the jurisdiction of a licence. Where such situations occur, the Council would expect to be notified by the chaperone concerned within 24hours in case further intervention by the Council was justified.
- B21. The Council may condition a performance licence in respect how a child's earnings are appropriated. This is more likely for those children receiving significant monies for performances and would be to ensure such earnings are not unjustly spent by those with parental responsibility. As a result, the Council may require a percentage of monies earned to be deposited in a bank account for the sole use of child. In considering a child's earnings (or payment) the Council may consider 'expenses' received if these are decided to be unreasonably high in the circumstances and considered to be in effect a 'disguised' payment.

- B22. The Council expects separate toilet facilities for children and adults to be available at places licensed for rehearsals and performances.
- B23. The Council respects the legal requirement that chaperones can supervise a maximum of 12 children but believes there may be occasions where a lower maximum number is justified. Factors that can be relevant include the nature of the production; the layout of the premises; the ratio of boys and girls; the ages of the children.

Body of Persons Approvals (BOPA)

- B24. A BOPA can reduce the requirement for obtaining performance licenses on certain organisations arranging performances in the area of Milton Keynes but there can be no compromise in safeguarding arrangements in deciding an application for an approval. The Council consider that performances under a BOPA should therefore be undertaken with the requisite number of approved chaperones unless equivalent safeguarding controls can be demonstrated, for example if children are being cared for by their parent or the teacher who would ordinarily provide the child's education it may be that approved chaperones are not required. Where they can demonstrate acceptable procedures are in place then the council may agree a mix of supervision options consisting of local authority chaperones, DBS checked adults, teachers and a child's own parent.

Where they cannot demonstrate acceptable procedures are in place, then only the use of local authority approved chaperones will enable the group to be considered for a body of persons approval.

- B25. Applicants for a BOPA should provide an up-to-date suitable Child Protection Policy. Such policies should comply with good practice guidance and identify a safeguarding lead provide an awareness of safeguarding issues.
- B26. Applications should be submitted a minimum of 21 days before the date of first performance. Applications issued with less than 10 working days notice may be refused.
- B27. The Council may issue a BOPA for a period not exceeding 12 months or a shorter timescale if deemed appropriate.
- B28. The Council may impose appropriate conditions on an approval to ensure the wellbeing of the children.
- B29. The Council reserves the right to withdraw (or revoke) or to amend or refuse a BOPA if it considers it appropriate to do so. Where such actions take place reasons will be provided in writing.

B30. There is no renewal procedure in the law for a BOPA so a new application will need to be made each year to retain an approval.

Annex C

Chaperone Approvals

- C1. The role of a chaperone is to safeguard, support and promote the wellbeing of a child/children as well as to have care and control of that child/children. They are the key person who protects; safeguards and supports a child under the licensing system. Chaperones are required for licensed and other approved events unless the child is being cared for by their parent or the teacher who would ordinarily provide the child's education. As an approved chaperone the Council expects such adults to safeguard children and to prevent and report any neglect or abuse as well as to raise concerns about the safety or welfare of a child and to act where they can.
- C2. The Council reserves the right to refuse; withdraw (or revoke) or to amend a chaperone approval if it considers it appropriate to do so.
- C3. The Council recognises the important role that the voluntary sector play in society but the tests in terms of suitability to grant an approval remain the same as a 'standard' chaperone. Any 'volunteer chaperone approval' will not allow the chaperone to undertake paid or employed chaperone work. Guidance on this matter will be available on request.
- C4. In considering if a person is suitable and competent to exercise proper control the Council will require applicants to attend relevant training and if required an interview on the role and duties of a chaperone before an approval is granted or renewed. Applicants and holders of an approval may also be interviewed on issues arising that cause concern to the Council. The Council will provide a suitable training course or direct applicants to alternative provision (such as another local authority provider) or the NSPCC Protecting children in entertainment training for chaperones.
- C5. The Council acknowledges that the NNCEE guidance promotes a face-to-face interview for chaperone applicants. However, the requirement for DBS, completion of a specific training programme and consultation with other departments circumvents the need for interview except under officer discretion.
- C6. The Council will consider an individual's criminal record and other information gained by enquiry when deciding if a person is suitable to be approved or remain as a chaperone.
- C7. Any person seeking to be approved as a chaperone is required to declare convictions; cautions; and ongoing Police or Court bail matters when they apply for an approval and if such matters occur during the term of their chaperone approval. Where such matters arise during the course of an approval or application, they need to be declared to the Licensing body within the Council without delay and in any event, no more than 7 days after they occur.

- C8. When considering an individual's application the Council will consider each case on its merits, but will take a particularly cautious view of any (i.e. not generally accept applications where) offences and or information involving violence; dishonesty; sexual related matters; substance abuse; offences or inappropriate behaviour in relation to young people or health issues that could cause concern in respect of the role of chaperone.
- C9. Where necessary individuals may be interviewed as part of the application process. Individuals with information recorded on their Barring Service certificate will be interviewed as part of the decision-making process unless the decision is to refuse the application.
- C10. Applicants are expected to ensure renewal applications are received by the Council at least two months in advance of their approval expiry date to ensure that their application can be decided in time. Responsibility for ensuring a renewal application is made rests with the permission holder. If an application is received late or is incomplete there may be insufficient time to process the application before the existing approval expires and the person concerned may therefore be unable to chaperone for a period of time.
- C11. An application must be made on the appropriate application form correctly completed in full by the applicant. Applicants should consider the time it takes to obtain an enhanced disclosure from the Disclosure Barring Service (DBS).
- C12. Chaperone approvals are granted for a maximum of three years but may be granted for a shorter period if considered appropriate, for example where their DBS is due to expire before the end of the three year period.
- C13. The Council will not grant an approval to someone residing outside the administrative area of the authority.
- C14. The applicant must provide the following to satisfy the Council that they are suitable to be issued an approval. These are detailed below:
- a. A satisfactory enhanced disclosure and barring service (DBS). The Council may process a DBS application or utilise a third party company to allow applicants to obtain a criminal record check. Details of which will be listed on the Milton Keynes City Council website.
 - b. In the event that the applicant has not resided within the UK for the last twenty years, an equivalent DBS check (for example a Certificate of Good Conduct from the relevant embassy or consulate for each country in which they have resided or where this cannot be obtained a statutory declaration or equivalent) is required covering their adult life after they attained the age of 18 until they reached the UK.

- c. Appropriate documentation from a list provided by the Council to confirm identity and address dated within the last three months.
- d. To demonstrate to the satisfaction of the Council an adequate knowledge of the law relating specifically to the legislation governing children's performance licensing and safeguarding issues. The Council will provide a suitable training course or direct applicants to alternative provision (such as another local authority provider or the NSPCC Protecting children in entertainment training for chaperones)
- e. A passport size photograph for each application made.
- f. Suitable references.

C15. Where a permission holder allows an approval to lapse or it is surrendered or revoked then a new application will need to be made to be licensed. The council does not class applications received after an approval has expired as a renewal. When the holder of an approval allows it to lapse, or it is surrendered then a new application will need to be made and granted for them to be approved again. The Council does not class applications received after an approval has expired as a renewal.

C16. A Disclosure and Barring Service enhanced certificate will be required as part of an application or renewal process. The certificate needs to be presented to the Licensing Office where a copy will be made with the certificate holders' consent. The Council will accept an existing enhanced DBS certificate from another body or from the online DBS updating service, but such certificates must refer to the correct role / occupation and need to be current. The DBS update service provides a way of making sure a certificate remains 'current' but certificates produced otherwise will be considered out of date if they are over three months old.

C17. The Council can refuse a renewal application (or rescind an approval) if it considers the suitability test has not been satisfied. For example:

- a. Where the applicant has been convicted of a criminal offence, since the grant of the permission.
- b. Any other reasons to do so, including but not restricted to breach of legal requirement and / or policy requirements, justified complaints, evidence of dishonesty or breach of trust, failure to act in the interests of a child.

C18. The Council may require another disclosure at any time if a further check is considered necessary.

C19. A serious view will be taken of any application that seeks to conceal any caution or conviction in order to aid the process of obtaining an approval.

Annex D

Work Permits

- D1. Unless an exemption applies, a work permit is required until a child reaches the compulsory school leaving age. This is defined as the last Friday in June of the school year (generally Y11) that they reach 16.
(Informative – a child who is 15 at the last Friday in June but who has a birthday in July or August that same year, does not need work permit after the last Friday in June of that year.
- D2. Work Permits are issued subject to Council byelaws (see Annex E). These cover the nature of work activity the Council considers potentially appropriate and are in addition to those restrictions laid down in the legislation.
- D3. A child undertaking work experience arranged by the local authority or by the governing body of a school acting on behalf of the local authority will not require a work permit. This relaxation of rules is contained in section 560 of the Education Act 1996. The work experience must be in the last two school years during which the child is of compulsory school age. This does not remove the need for any such employer etc. to undertake and comply with appropriate risk assessments under the Health and Safety at Work Act 1974 and its subordinate regulations.
- D4. As part of applications for a work permit the Council will require a suitable and sufficient (young persons) risk assessment covering the work involved as part of consideration that the work will not be harmful to the safety and health of the child. Advice is available on the Council website.
- D5. Applications need to be submitted on the correct and fully completed application form.
- D6. To ensure the proposed work activity will not be harmful to a child's attendance at school or their overall health and development applications for work permits will be notified to the child's school and any comments received will be taken into consideration as part of the decision-making process.
- D7. The legislation details the maximum number of hours a day / a week that a child can work.
- D8. Permits can only be granted for businesses based in Milton Keynes. A satellite office may also be considered if it is in Milton Keynes.
- D9. The council may rescind or vary a permit if it considers necessary or refuse to grant a permit.

- D10. The legislation applies to 'employment'. As well as employment in its normal meaning, a person who assists in a trade or occupation carried on for profit is considered as employed even though they may receive no payment. For example, children who help their parents in a shop without receiving any payment. Any occupation where the aim is to make a surplus would be considered as a trade or occupation carried on for profit therefore unpaid work at a charity shop would count as employment, but not, for example, unpaid work at a youth club.
- D11. As part of an application for a work permit the Council requires parental consent including contact details of the parent concerned.

Explanatory Note

(This note is not part of the Byelaws)

These Byelaws regulate the types of occupation in which children under school leaving age may be employed (byelaws 3-5), and other conditions of their employment. They provide for checks on a child's fitness for employment (byelaws 10 and 11) and for the issue of employment permits, setting out the occupation in which a child may be employed and his hours of work (byelaws 9-16). Employers are obliged to notify local authorities of their child employees (byelaw 9).

These byelaws are not a comprehensive statement of the law relating to the employment of children and should be read in conjunction with other legislation relating to prohibited occupations, hours of work and street trading in particular.

By virtue of section 560 Education Act 1996, enactments relating to the prohibition or regulation of the employment of children do not apply to children undertaking work experience within the meaning of the Act "Enactment" for this purpose includes byelaws having effect under an enactment, so nothing in these Byelaws applies to a child's work experience.

Penalties

Section 21 of the Children and Young Persons' Act 1933, as amended provides, inter alia that:

If a person is employed in contravention of Section 18 of the Act, or the provisions of any Byelaws made thereunder, the employer and any other person (other than the person employed) to whose act or default the contravention is attributable shall be liable on summary conviction to a fine not exceeding level 3 on the Standard Scale (£1,000).

If a person is employed in contravention of section 20 of the Act, the employer and any person (other than the person employed) to whose act or default the contravention is attributable shall be liable on summary conviction to a fine not exceeding level 3 on the Standard Scale (£1,000); a person under compulsory school age who engages in street trading in contravention of the provisions of section 20, or of any Byelaw made thereunder, shall be liable on summary conviction to a fine not exceeding level 1 on the Standard Scale (£200).

Annex F Prohibited Employment and Definitions

Street Trading

A child of any age may not engage or be employed in street trading unless the child is aged 14 or over and employed by their parent who holds a permit.

Outside

A child of any age may not be employed outdoors unless the child is wearing suitable clothes and shoes.

Employment

Employment, includes assistance in any trade or occupation which is carried on for profit, whether or not payment is received for that assistance; Any occupation where the aim is to make a surplus would be considered as a trade or occupation carried on for profit.

Licensed Premises

Working behind the bar and the sale of alcohol

Please note that under the Licensing Act 2003 (LA 2003) it is an offence for an unaccompanied child under 16 to be present in premises solely or mainly involved in the sale of alcohol. The LA 2003 also restricts the unsupervised sale of alcohol by anyone under 18 except where it is sold or supplied for consumption with a table meal in a part of the premises used only for that purpose. The effect of this exemption is that, for example, a child under the school leaving age working as a waitress or waiter is, under the Act, able to serve alcohol lawfully in a restaurant.

However, the Milton Keynes City Council Child Employment Byelaws 1998 restrict the employment of children in the sale of alcohol except when the alcohol is in sealed containers.

For the avoidance of doubt, these byelaws override the LA 2003 and it will be an offence under that byelaw to employ a child in the sale of alcohol in a restaurant (unless it is in a sealed container) even though the Licensing Act permits the unsupervised sale of alcohol by children in these circumstances.

If the child is working alongside a contractor doing maintenance and repair or painting and decorating on a licensed premises provided that they were always supervised by an adult (over 18 years of age) and that the work is not prohibited by other factors they could work within the premises.

Industrial undertakings

The employment of children under the school leaving age in industrial undertakings is forbidden.

'Industrial undertakings' includes:

- a) mines and quarries;
- b) any manufacturing;
- c) construction or repair of buildings, roads etc; and
- d) transport of passengers or goods, including handling goods in a warehouse.

The relevant Act forbids employment in industrial undertakings rather than forbidding any particular type of employment. Employment in, for example, the office of a road haulage firm would be forbidden because the road haulage firm would be an industrial undertaking. There is however an exception for family undertakings. A child can be employed in an industrial undertaking if it is an undertaking where only members of the same family are employed, although if a child is employed in such an undertaking the child must, only be employed to do light work.

Commercial Kitchen

Employment in a commercial kitchen is not permitted, but this would not prevent for example:

- a) serving at the counter of a fish and chip shop provided this does not involve getting fish or chips out of a deep fryer or working in an area where fish or chips are prepared;
- b) washing up in an area separate from where food is prepared;
- c) making sandwiches at the counter of a sandwich bar; and
- d) collecting meals from a kitchen or returning empty plates to a kitchen.

Butchers

Working in a butchers or slaughterhouse is not permitted, but simply weighing meat in a butcher's shop or putting it into a packet would be permitted.
