

## Our strategic objectives

The risks that we face are constantly evolving. Many factors contribute to this, including climate change, new construction, updated legislation and the emergence of new technologies, such as lithium-ion batteries (commonly used in electric vehicles, e-scooters and e-bikes). More information on these emerging risks can be found on pages 23 to 28.

After evaluating the available evidence, we developed an approach to these risks. Our approach is divided into three objectives (what we want to do) and three enablers (the people, assets and IT/data) that support delivery of the objectives. Each objective and enabler has a corresponding strategy outlined in detail on pages 34 to 52.

To measure the success of these strategies, we will monitor key performance indicators throughout the lifespan of the CRMP. Detailed information on these performance indicators is available on pages 53 to 55.
